

FIG. 1 is a schematic diagram of a laser system. The system includes a laser diode 10, a lens 14, a lens 16, a mirror 20, a mirror 18, a mirror 22, and a mirror 24. The laser diode 10 is connected to the lens 14, which is connected to the lens 16. The lens 16 is connected to the mirror 22. The mirror 22 is connected to the mirror 24. The mirror 24 is connected to the mirror 18. The mirror 18 is connected to the mirror 20. The mirror 20 is connected to the lens 14. The system is labeled 12.
